Ankit Kumar

ankitkumark9626@gmail.com +91 9113777695 AnkitMaurya0 ankit-kumar-b1177a32

Profile summary

AI & ML undergraduate with working knowledge of Data Structures & Algorithms and hands-on experience in Python-based application development and embedded systems projects. Familiar with backend development using Flask and MySQL, and experienced in building practical automation and IoT-based solutions. Actively strengthening problem-solving skills and core software engineering fundamentals.

TECHNICAL SKILLS

Programming: Python, SQL
Frameworks & Tools: Flask, Git, GitHub
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems
Embedded Systems: ESP32, Arduino, Sensor Integration

Projects

Artify: Multi-Vendor Web Marketplace | Github link: AnkitMaurya0/artify

- Developed a full-stack, database-driven marketplace connecting artisans with buyers.
- Implemented **user authentication**, role-based access, and product listing functionality.
- Designed backend modules for user management, product handling, and secure role-based authentication using Flask and SQL.
- Focused on **scalability, clean architecture, and maintainable backend code**.
- **Tech Stack:** Python, Flask, SQL, HTML, CSS

Experience

Machine Learning Intern – Future Interns

- Worked on structured datasets using Python for analytical and problem-solving tasks.
- Performed data cleaning, preprocessing, and exploratory data analysis.
- Gained experience in translating problem statements into implementable solutions.
- Strengthened logical thinking and engineering approach to real-world problems.

Education

- **Bachelor of Technology (Artificial Intelligence & Machine Learning)** **2025 – 2028**
  Chandigarh Engineering College, Jhanjheri
- **Diploma in Electronics Engineering** **2022 – 2025**
  Government Polytechnic, West Champaran
  CGPA: 8.44

Certifications

- **PCAP: Programming Essentials in Python** – Cisco (OpenEDG)
- **IT Essentials & Cybersecurity** – Cisco Networking Academy
